

*Bringing Cultural Heritage  
to the Digital Era,  
Unifying Past, Present and  
Future*

ARCH is an intercultural project that aims at the improvement of literacy skills and development of the emerging cultural and digital literacy of students utilising the cultural identity of each country using online applications.

## PROJECT RESULT 1 PRI

Application for  
Mobile Devices  
of Digital  
Browsing  
Platform  
and  
presentation of  
information on  
Cultural Points  
of interest

Co-funded by  
the European Union

## AIMS

Advances in mobile technologies have created opportunities for more effective dissemination of cultural heritage information to all stakeholders and especially to users on the go.

The deliverable is the design and development of a platform for the presentation and dissemination of cultural heritage information that provides support for mobile devices

## TARGET GROUP

- Educators and Students of all education levels and Educational Institutions
- Cultural heritage information providers, who provide information on cultural heritage items that will be disseminated through the platform.
- End all users, who are the recipients of cultural information. These users have either mobile devices (smartphones or tablets) and also have internet access (mobile users), or internet-connected desktops (landline users).

## CONTENTS

The app presents cultural heritage elements from **4 countries** (Spain, Greece, Italy, Greece and Cyprus),

**4 cities** from each country and **3 monuments** from each city are presented.

In total, the app includes **16 cities** and **48 heritage monuments**.
